Mrs. Morrish/ Computer Science Teacher

Welcome 7JM! I will be your tutor in September. I have worked at BCA for seventeen years, and have taught languages, humanities, PE, and Computer Studies. I love working at BCA as each day is different and there are so many people in this school who work hard to make sure that every day is a good day.

Some of you will have me for your Computer Studies lessons as well as for tutor, so we will get to know each other really well.

I can usually be found in the Computer Studies room during the day, but I will let you know where you can find me just in case!

My passion is sport. Watching sport and playing sport. I have played for Bridgwater Hockey Club since I was 15 and I still play now. My children and husband also play hockey, so it is a real family interest. I also enjoy swimming and watching cricket and football. I am a Leeds United fan but the rest of the household support Manchester United.

I have three children; two sons who are in their twenties and a daughter who is seventeen. My daughter is in charge of the music when we are in the car and we usually agree on the type of music we have on – Queen, James Blunt, McFly and even One Direction!

I love eating out when we can. My favourite places are Nandos and Ask Italian. I love making pizzas at home. It is great fun putting your own toppings on.

I am really looking forward to meeting you all and getting to know you. I have just said goodbye to my year 11 tutor group so it will be nice to be back with year 7 again.

See you all soon!

Mrs. Morrish
